

DRAFT DAY

Ultimate Challenge · EPS 1210-01 · Len Green · Fall 2026

WED SEPT 2 · 3:00 PM · OLIN 120

Rules of Engagement: **Tue 9/1 3-4 PM** or **Wed 9/2 9-10 AM**

Blank Center Televideo Room 021 — bring page 4

WEAR SOMETHING GREEN + HAND A SLIP WITH YOUR FIRST & LAST NAME TO AN HR OFFICER — SYLLABUS BONUS POINT. LAPTOPS & PHONES BANNED. THIS SHEET IS THE MACHINE.

9 AM SIX YESes, FOUR SEATS — Jeda · Omar · Mia · Tiffany · Kelly · AJ have ALL committed to join if I draft them. JEDA + OMAR have also committed to **refuse every other CEO**. Today's job: **pick which four + beat Nuchaba to Mia**. **MECHANIC:** a refusal forces them onto the **next team that picks them — not to me**: never let a pick pass between a refusal and my take. Never instruct a refusal — their call (Len Q7). JEDA = my first pick at whatever slot I hold. OMAR = R3.

RULE 1 DO NOT PASS ANY ROUND. 43 players · 48 slots — the pool runs out. Pass cash is one-time (\$600K/\$500K/\$250K/\$100K); a teammate works 13 weeks. Past winners: \$20M, <\$1M apart. **Draft four.**

RULE 2 EARLY PICKS = PEOPLE THEY CAN SEE. LATE PICKS = PEOPLE ONLY I CAN SEE. ★ = dark pool — **11 rival CEOs cannot see these names**; they last to R3. Governing rule: best player available — follow-through first, raw strength second, "can they carry a pitch?" for everyone (70% of the grade).

ROUND 1 — JEDA, AT WHATEVER SLOT I HOLD

she's the only tier-1 target rivals can see — she does not fall

1. JEDA WANNASIN □ · Thai, F · Strategy/Consulting · D 9.3 / S 5 · LOCKED MON NIGHT

- **Take her the moment my first pick comes up — no stash, no cleverness.** Presidential Scholar (never mentions it) · shoots + edits + performs her own 65-sec video — the only finished artifact in the class · ColoriS 2.5 yrs, assets behind a **529% revenue jump** · CodeClean ~200 units at 35% ROI · filed GISSCO's patent app.
- **If a rival drafts her first and she refuses:** take her at my own slot (forced join, 2nd team). **Refused AND re-drafted by a rival: she's gone → best available + buy-back talk (\$200-300K cap).**

ROUND 2 — THE CLOCK PICK: MIA IS THE ONLY COMMIT ON A TIMER

six yeses, four seats — R2/R4 = two of {Mia · Tiffany · AJ}; Kelly covers any wobble

2. THE ONLY COMMIT A RIVAL CAN TAKE FROM ME IS MIA · her own standing terms (8/31): first of {me, Nuchaba} wins — she refuses everyone else

- **Why the clock:** Nuchaba drafts Chi O friends early — if Mia isn't mine by my R2, she's Nuch's. **Tiffany (S2), AJ (S1), Kelly (S4) are invisible/underpriced — they last to R4 at ~zero risk.** R2 = the clock player, unless I choose to let Mia go and take the talent pair.
- **CIRCLE ONE AT 1:30 PM, after the noon AJ meeting** (rules: AJ-10N1-PLAN.md):

① **MAX TALENT — R2 Tiffany → R4 AJ**
Jeda·Tiffany·Omar·AJ — highest ceiling, 2F/2M. Mia → Nuch (lands with a friend; fine). **Cost:** quietest team — I supply all the energy + all the process.

② **BALANCE — R2 Mia → R4 Tiffany**
Jeda·Mia·Omar·Tiffany — 3 women (Len scores gender), personable core, zero drama. **Cost:** no Maker — the "object → business" weeks get harder.

③ **MAKER + HEART — R2 Mia → R4 AJ**
Jeda·Mia·Omar·AJ — personability AND the engineer. **Cost:** loses Tiffany's ceiling (no rival gains her — she's invisible).

Kelly = alternate in every plan — a commit wobbles at the door, she takes the seat, order holds. **Nuch snipes Mia pre-R2?**
Plan ①. **AJ noon = B/C?** Plan ②.

ROUND 3 — OMAR FLORES □

dark pool, scarcity 2 — nobody else even knows him

3. OMAR FLORES □ · first-gen Latino, M · Analytics · D 9.3 / S 2 · Blank Scholar · LOCKED MON NIGHT

- President's Office analyst · o4flo ~2.5 yrs · CTO of 12-person TeesHees · 3 yrs BBBS · Boston Marathon (Boston.com) · the AI pathway analysis nobody asked for · trains clients at **LGRAC, the gym named after Len. He has also volunteered to refuse every other CEO.** If a rival drafts him early and he refuses → **take him at my very next slot** (forced join, 2nd team). If a rival RE-drafts his refusal before I can → he lands on their roster → **post-draft trade: open at \$200K, walk at \$300K — Omar is the ONE player I pay for.** Don't spend R1/R2 on him — that's the whole point of the lock.

ROUND 4 — THE SURVIVOR (PER THE PLAN CIRCLED ABOVE)

Tiffany / AJ / Kelly all last — zero race risk. Take whoever the circled plan says.

Plan ① → AJ ★ 9.0 · Plan ② → TIFFANY ★ 9.0 F · Plan ③ → AJ. Commit wobbles → KELLY 8.6 F, no hesitation. All six gone (won't happen) → best available: **Ong ★ 9.0 · Brock ★ 9.3 (no commit — sound him out first) · Marra 8.8 · Tarynea 8.5 · Chen ★ 8.6.**

CONTINGENCY LOGIC — ONE LINE EACH

Jeda drafted + refused → I take her at my slot (forced join)

Jeda/Omar refused + re-drafted by a rival → trade talk: open \$200K, cap \$300K (Omar = the one I buy; anyone else bargains only, <\$150K)

Mia gone before my R2 (Nuch) → Plan ① by default: R2 Tiffany → R4 AJ

AJ noon meeting = B/C → Plan ② (R2 Mia → R4 Tiffany); C = Kelly enters the four

Any commit wobbles at the door → Kelly takes the seat — stop negotiating, draft

Board empty → still draft. **Never the cash.** Passes: NO · NO · NO · NO.

ROUNDS 3-4 — THE DARK-POOL SWEEP

all of these should still be there — 11 CEOs can't see them

RIVAL MAP: Badejoko (films — hunts Jeda; she's LOCKED — if he drafts her she refuses and I take her at my slot) · Nandika (credentials — wants Adi, may buy Nagpaul/Ilan/Henrique) · Wiacek (closers+makers — Alpher/Marra/Collins/Jeda; her brother's Len-funded Vix hit the Olympics) · Scholte (friends — Chi O = MIA, the one commit she can steal: if she picks before my R2, Mia is hers) · R. Jain (family firm, needs a brand person = Jeda). Nine of eleven rivals have no verified venture. Prestige sinks absorb early picks — that's the arbitrage.

ASK LEN — RULES OF ENGAGEMENT (IN PRIORITY ORDER)

- 1 **How is draft order determined?** Can position be bought before the draft or only traded during it?

2 **Are the 3 HR + 3 IT Officers draftable, or removed from the pool?** ← biggest swing (43 → 37 for 48)

3 **Roster count?** Your email says 56; the merged roster counts 55. Late adds or non-credit guests still coming?

4 If I pass, is the end-of-draft refill **guaranteed** to 4, or just whoever's left? What if the pool empties?

5 **Non-credit recruit:** if I bring a student, are they mine or the general pool's? Deadline to name them?
- 6 Does the **\$400K under-four bonus stack** with per-round pass cash?

7 **Refusal:** declared in the room? Is pre-arranging one within the rules?

8 Can capital buy anything besides position/players? **Does unspent capital carry into the semester scoreboard?**

9 Post-draft trades — allowed? What's a fair price to you?

10 Do I learn my pick number before the draft, or in the room?

READING THE ROOM — REPLY CRIB

Unprompted specific "yes, I'll join"	Real. Log HARD. One warm check-in Tuesday night. Stop selling.
"Yeah sounds good"	Politeness. Follow with: "if two CEOs draft you, am I your first choice?"
"A couple of people reached out"	Contested — ask who. Most will tell you. Log it in the intelligence table.
No reply by Tue evening	Unreached, not uninterested. One short touch on Babson email. Then stop.
"Committed to another CEO"	Believe it. Log the rival — it tells you what they're building. Move on.
Yes to several CEOs	Normal. Counter with specificity: "where would I land if it came down to it?" Ask ranking, not exclusivity. Never ask anyone to refuse a pick.

THE RULE

TAKE THE BEST PLAYER AVAILABLE. Proven follow-through first. Raw strength second. **Can they carry a pitch — asked of EVERYONE (70% of the grade).** Complementarity breaks ties between close players; it is never a reason to take the weaker one. Only hard constraint: don't end up with four of the same person. Check at R4: all analysts or all salespeople? Fix with the last pick. Three men by R4 → Len scores gender (Anvesha, Kelly, Mia, Tarynea, Harini, Zeynep all live).

GOAT screen: held one thing 2+ yrs · shipped something that exists · did work nobody assigned · quantified their OWN outcome · did the unglamorous version · performs under judgment.
